

The Growing Challenge of Digital Scam Detection

Online scams are becoming increasingly sophisticated, making it difficult for users to distinguish legitimate communications from fraudulent ones. Phishing attacks, banking fraud, fake job offers, and impersonation scams often appear trustworthy, leaving users vulnerable to financial loss and identity theft.

Our Solution

KnowScam AI is an AI-powered scam detection platform that helps users identify fraudulent messages and suspicious screenshots before they become victims. Using advanced AI analysis, the platform detects scam indicators, evaluates risk levels, explains threats in simple language, and provides actionable safety recommendations within seconds.

Key Benefits

- ✓ Detects phishing, fraud, and impersonation attacks
- ✓ Analyzes both text messages and screenshots
- ✓ Provides clear risk assessment and confidence scores
- ✓ Generates easy-to-understand explanations and recommendations
- ✓ Supports multilingual threat analysis

HOW IT WORKS

1. Input Collection – Users provide text, screenshots, or voice input.
2. Preprocessing – Language detection and relevance validation are performed.
3. AI Threat Analysis – Content is analyzed for scam patterns and fraud indicators.
4. Risk Assessment – Risk score, confidence level, and threat category are generated.
5. Actionable Output – Recommendations, explanations, and multilingual reports are delivered.

KEY CAPABILITIES

-  **Screenshot Analysis**
Upload screenshots of suspicious chats, emails, websites, or messages for AI-powered scam detection.
-  **Speech-to-Text Input**
Users can simply speak suspicious messages instead of typing them manually.
-  **Text Analysis**
Analyze SMS, emails, social media messages, and online communications.

More Than Just Scam Detection Built for Accessibility, Security & Trust

CORE FEATURES

- 

Language Detection
Automatically identifies the content language.
- 

Multilingual Reports
Generate reports in the user's language.
- 

Speech-to-Text
Analyze messages using voice input.
- 

Relevance Detection
Filters unrelated content before analysis.
- 

Simple Explanations
Makes threats easy to understand.
- 

Prompt Protection
Resists malicious prompt injection attempts.

Real-Time Detection
Analyze suspicious content instantly using intelligent scam detection.

Screenshot Analysis
Upload screenshots and let AI identify potential threats.

Global Threat Database
Compare threats against known scam patterns and malicious tactics.

Language Detection
Automatically detects content language and returns analysis in the same language.

Speech-to-Text Input
Speak suspicious messages directly instead of typing them manually.

Prompt Injection Protection
Hardened AI prompts help prevent malicious instructions from manipulating analysis.

Relevance Detection
Identifies and rejects unrelated content, ensuring analysis focuses only on scam-related material.

Downloadable Reports
Export professional threat reports with risk scores, indicators, and recommendations.

Why We Stand Out

- ✓ Text + Screenshot + Voice Support
- ✓ AI-Powered Threat Intelligence
- ✓ Multilingual Analysis & Reports
- ✓ Human-Friendly Explanations
- ✓ Privacy-First Architecture
- ✓ Downloadable Threat Reports

THREAT INDICATORS

- संदिग्ध लकि (sbi-secure-login.xyz)
- अतन्त्रित्परता (Urgency) पैदा करना (24 घंटे में खाता बंद करने की धमकी)
- Impersonation (SBI के नाम का दुरुपयोग)
- धमकी भरा लहज़ा

SIMPLE EXPLANATION

यह एक धोखाधड़ी वाला संदेश है जो आपको डराने की कोशिश कर रहा है कि आपका बैंक खाता बंद हो जाएगा। यह असली SBI की ओर से नहीं है। यह आपको एक फर्जी वेबसाइट पर ले जाकर आपके पैसे और बैंक की जानकारी चुराने की कोशिश है।

DETAILED ANALYSIS

यह एक फिशिंग (phishing) स्कैम है। हमलावर ने SBI का नाम इस्तेमाल करके एक डर पैदा किया है कि खाता नलिंबति कर दिया गया है। 'sbi-secure-login.xyz' लकि एक वैध SBI वेबसाइट नहीं है। ऐसे लकि उपयोगकर्ताओं को नकली लॉगइन पेज पर ले जाकर उनके बैंकगि क्रेडेंशियल्स चुराने के लिए डज़ाइन किए जाते हैं।

RECOMMENDATIONS

- किसी भी परस्थिति में इस लकि पर क्लिक न करें।
- अपने बैंक या किसी भी वेबसाइट पर लॉग इन करने के लिए हमेशा बैंक के आधिकारिक ऐप या भरोसेमंद वेबसाइट (sbi.co.in) का उपयोग करें।
- इस संदेश को तुरंत डलीट कर दें और भेजने वाले को ब्लॉक कर दें।

Recommended Actions

- ✅ Do not call the phone number listed in the message.
- ✅ Do not provide any personal, financial, or Social Security information to the sender.
- ✅ Report this phishing attempt to the official Social Security Administration fraud reporting website (oig.ssa.gov).
- ✅ Delete the email immediately.
- ✅ Be aware that government agencies rarely initiate contact via email for sensitive issues regarding your identification.
